# Daily Bite Size Training

Topic:  
Modules in Template Builder

# How to save a module?

1. Navigate to Engagement and select Template Builder
2. Once creating content hover over the 3 blue dots
3. Click the right most option to save

# How to save a module?

Fill out Module Name, Description, and other necessary fields

Click Save

The screenshot shows a mobile application interface with two tabs at the top: "Appearance" and "Content". Below the tabs are three sections: "Structures", "Blocks", and "Modules", each with a right-pointing arrow. The "Modules" section is expanded, showing a "back" button and a list of modules. The first module is selected, showing a placeholder image with the filename "95161606146294537.png" and dimensions "560 x 23 px". Below the image is a circular refresh icon. The form fields are as follows:

- Module name:** A text input field containing "Testing Name".
- Module description:** A text input field containing "Module Testing for Bite Size Training".
- Category:** A dropdown menu with "Other" selected.
- Tags:** A text input field with the placeholder "Enter tags...".
- Id:** A text input field containing "container69".

At the bottom of the form is a large green button labeled "Save".
